

Secure Media Cooler

• 60 minutes datamedia protection

Many designers, photographers, architects would like to protect a small amount of datamedia (e.g. DVDs/CDs, memory cards and DAT tapes). Safes such as the Secure Disc and Secure Data would exceed their needs. The perfect answer would be the Secure Media Cooler. Based on a portable and lightweight design, the safe offers 60 minutes fire protection and quality locking. For additional mobility the safe is supplied with a detachable cart. Combining so many quality features at a low price illustrates SecureLine's position as the only budget security brand to own. Many would agree...

Model

- The Secure Media Cooler has a volume of 4.2 litres and capacity to hold more than 40 CD/DVD's and is easily stored in a cabinet or under a desk.

Locking

- All coolers are equipped with a latch and secured by a key lock with two keys
- As standard the units are prepared for an additional padlock for increased security

Certification

- The Secure Media Cooler is tested and certified to UL 72 Class 125 for 60 minutes protection against fire and humidity

Additional features

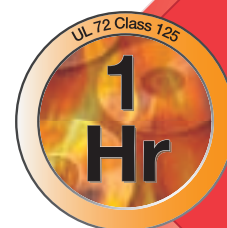

- The Secure Media Cooler is specially designed to protect your data against the irreversible effects of fire, heat, humidity and dust
- The Cooler is designed to be a portable unit and, as standard, it is supplied with a detachable cart for increased mobility

Design

- The Secure Media Cooler has a modern sophisticated design and will complement any user environment
- The Coolers are supplied light grey and the latch is in dark grey finish
